

For our patients transitioning to Outpatient Physical Rehabilitation following surgery, your physician may also have ordered routine follow-up Coumadin laboratory tests. For your convenience, we have listed some patient service laboratory facilities located in your local communities and in proximity to our **NRH Regional Rehab Outpatient Centers**. Laboratory facilities located in the same building as one of our outpatient centers are noted in *italics*. The laboratory will contact your physician directly to communicate your test result, and your physician will monitor and adjust your medications as needed. To schedule a laboratory appointment and/or for additional information on lab locations, hours of operation, accepted insurances, and FAQ's, please contact the laboratory directly. Remember to bring your physician order, referral or test requisition form to the laboratory facility along with a copy of your medical insurance card. Some labs offer on-line appointment scheduling for many of their locations. Use the web links to access the lab website. This document may be accessed directly on the web by going to www.nrhrehab.org/outpatientservices
